En cumplimiento de lo dispuesto en el artículo 23 de la Ley del
Notariado (en su redacción dada por el art. 19.1 de la Ley 11/2021,

What **activities** do we plan to carry out to achieve the aims of the Fundación ECOLEC Envases:

a.

To organise and finance the collection and management of domestic, commercial and industrial packaging waste under the terms of the applicable regulations.

b.

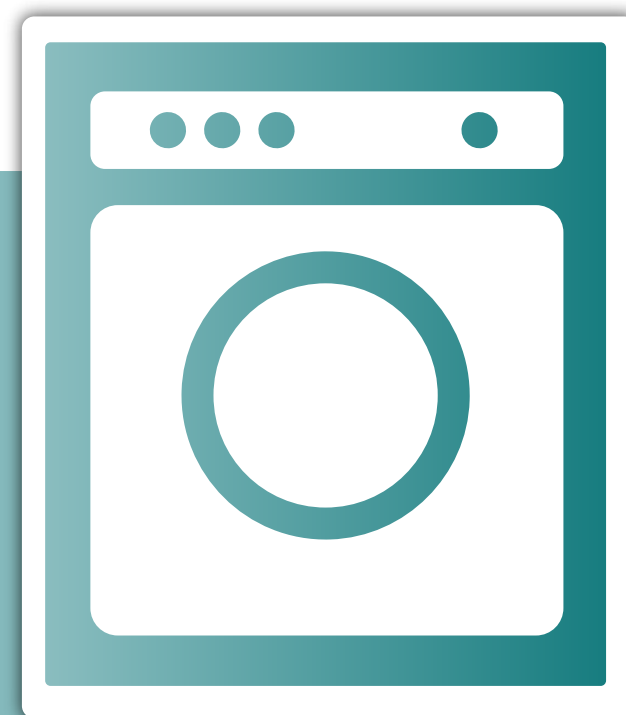

To respect the principles of protection of human health, consumer protection, environmental protection, the application of the waste hierarchy and the protection of competition, regarding the placing on the market of packaging and the management of packaging waste.

c.

In general, to perform any activity related to compliance with the obligations of extended producer responsibility for packaging and the management of household, commercial and industrial packaging waste per RD 1055/2022.

**OUR
INTENDED
AUDIENCE**

We aim to provide a service in the field of extended producer responsibility for packaging to **all companies in the field of household equipment** (household appliances, furniture and furnishings, bathrooms, decoration, etc.).

WHAT IS THE SCOPE?

Types of packaging

Domestic

Commercial

Industrial

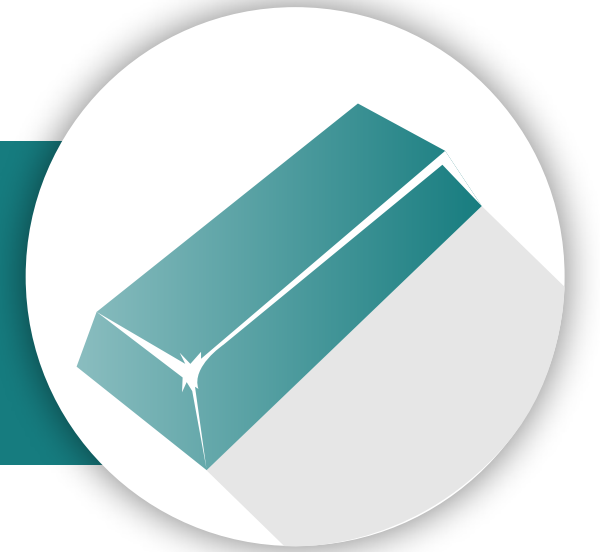

Types of materials

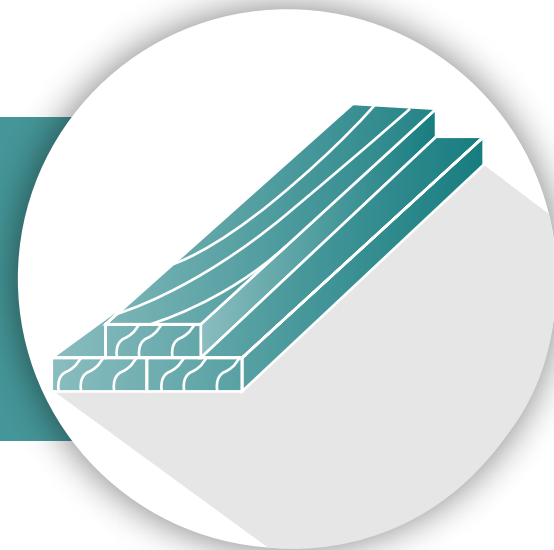

Plastic

Alumnium

Wood

Glass

Ferrous metals

Cardboard paper

**WHAT
MEANS WE
HAVE AT
OUR
DISPOSAL**

**HOW WE
WANT TO
OPERATE**

ECOLEC Envases will be **supported by ECOLEC Waste Hub**, the managing body that provides services to Fundación ECOLEC and ECOLEC Baterías.

ECOLEC Waste Hub has **20 years' experience in the field of extended producer responsibility** for electrical and electronic equipment.

We have pioneering **IT systems** to ensure **traceability** of waste throughout the value chain.

The **values** that drive the entities operating under the ECOLEC brand are:

COMPLIANCE

EFFICIENCY

TRANSPARENCY

WHAT WE OFFER

We offer

a.

Fulfilment of the collection targets for packaging waste, derived from the producers' environmental responsibility, through the organisation of a system of separate collection and correct treatment of the aforementioned waste.

We offer

b.

Transparency and objectivity in joining the system through simple and non-discriminatory systems.

We offer

c.

Transparency regarding **fulfilment of the objectives of the system** of the objectives of the system and the possible initiation of sanctioning procedures for breach of extended producer responsibility obligations.

We offer

d.

Option to **change systems** annually.

We offer

e.

Administrative management of the documentary and information obligations set out in Royal Decree 1055/2022.

We offer

f.
Participation in the organisation of and access to environmental information through the **Incorporated Companies Committee.**

We offer

g.

Equal treatment of producers, regardless of their origin or size.

We offer

h.

Confidentiality of company information

We offer

i.

Support and preparation of **Prevention and Ecodesign Business Plans.**

We offer

- j.**
Collection of packaging waste from producers' facilities, respecting the management systems that, per environmental regulations, may already be in place.

We offer

k.

Dialogue with system members and with all operators

We offer

I.

Advice on producer waste management issues

We offer

m.

Support for the development of **environmental awareness actions** for the company's staff.

FEES

We exclusively pass on costs (separate collection and subsequent transport and treatment; information to the end user or holder and awareness-raising campaigns; data reporting; provision of financial guarantees) according to the **waste actually managed** and each producer's **share of responsibility** , by type of packaging, in a transparent and orderly manner.

Underwriting of a financial guarantee (insurance):

Implementation of mechanisms to return excess revenues per environmental regulations.

The financial contribution shall not exceed the costs necessary for economically-, socially- and environmentally cost-effective provision of waste management services.

The financial contribution, by packaging, category, material and weight, shall be made publicly available.

ECOLEC Packaging Rates

Domestic packaging

MATERIAL	BASE RATE 2025	
	(EUR/tonne)	(EUR/kg)
Paper / Cardboard	111,00	0,111
Plastic Film + Flexible	1.313,00	1,313
Pet (Blister)	707,00	0,707
